

**Speaker Introduction: Kerri Salls (S –all- z)
Business Advisor to Future Million Dollar Consultants and Solo-preneurs**

Who here wants proven strategies to thrive and grow profits as a consultant or solo-preneur?
Who here wants to be able to eliminate unnecessary costs while increasing your profit?
Who wants to discover simple strategies to keep you SANE as you exponentially grow your business?

If you are saying yes, and I know you all are, then let me introduce our speaker Kerri Salls. Clients say that Kerri's biggest value to them is her system for designing a business centered on their values and the lifestyle they choose. Her credibility as a business advisor comes through because she knows first-hand how to build a successful, thriving, solo company using her secret weapons – Delegation and Leverage. With 10 years in corporate America, Kerri started her first consulting company DocTech. After 11 years running DocTech, Kerri recognized that most consultants and solo-preneurs naturally create a J-O-B for themselves, rather than a company. They position themselves to work harder than they ever imagined, only to get minimal results. Frustrated and overwhelmed with the cumulative demands of the business, they get disillusioned about what it will take to make their business thrive. They get stuck and never actually experience the satisfaction and benefits of sole proprietorship that they crave.

Since 1999, Kerri has worked exclusively with consultants and solo-preneurs around the globe who are ready to launch their ultimate dream business.

Kerri's clients, who are consultants, solo-preneurs and service professionals, create more profit in less time giving them more time for fun, family and freedom. She does this through her personalized mentoring programs, easy to follow systems, and proven, profit-generating tools that cause her clients to propel their business forward making their dream businesses extremely profitable businesses, fast.

Kerri is an adventurer at heart and spends her free time pursuing snow and water sports and international travel.

We are excited to have Kerri with us today. Everyone stand up and please help me give a loud, thunderous applause to the woman who is going to get us on the fast-track to more success, freedom and fun today! Welcome Kerri Salls.
